- Django
- FastAPI
- HTML
- CSS
- JavaScript
- React.js

## summary

My name is Samiullah Jabbar, and I am a Full Stack Developer specializing in both frontend and backend technologies. From the very beginning of my career, I have had the privilege of being part of a software house, where I worked on live projects, implemented advanced problem-solving techniques, and learned industry standards. I appreciate the development of interactive interfaces as much as I do the development of robust backend systems and strive to further evolve in my role.

## Projects

### 1. Web Defense Tool

A full-stack website security tool designed to detect and track real-time threats

### 2. Hotel Analytics Dashboard

An AI-powered analytics tool for hotel management that visualizes data using charts and graphs, helping businesses gain actionable insights.

### 3. Privacy-Focused Social Media App (TikTok Style)

Developed a privacy-first short video sharing platform inspired by TikTok

### 4. E-commerce Website with PayPal Integration

Built a complete e-commerce platform with product listings, cart system, and secure checkout via PayPal.

### 5. Custom AI Chatbot

Developed a custom chatbot using AI models to provide automated responses tailored to user queries.

### 6. Audio to Text Converter with AI Response

Created a tool that converts user voice into text and uses AI to generate relevant and accurate responses.

## Education

Bachelor of Artificial intelligence

The Islamia University of Bahawalpur (2024 -28)
